

## Domestic Locksmithing

With over 25 years of experience, we've been helping homeowners secure what matters most. Whether you need support at our Whitstable base or assistance at your door, we provide a complete domestic locksmith service you can rely on.

We offer lock supplies and key cutting from our base, alongside a full mobile service covering emergency lockouts, lock repairs, and securing properties after break-ins. Where possible, we fit British Standard locks to support insurance requirements, while also offering like-for-like replacements when needed.

We also specialise in upgrading home security—installing high-security locks, smart lock systems, and safes tailored to modern living. Working with trusted brands such as ABS, Mul-T-Lock, DOM UK, and Burg-Wächter, we ensure every solution is built on proven, high-quality security products.

Call us to see if we can help.
